Walter Dunn is a transactional attorney practicing out of our Memphis and Alexandria offices. He has closed over \$50 billion worth of transactions in the energy industry over the last two decades. Walter has a special focus on the energy industry and worked with public utilities and municipally owned utilities and independent power producers to develop all types of electric generation facilities from landfill gas plants, natural gas fired plants, coal fired plants, nuclear facilities, wind farms and solar installations. Walter also has extensive experience working with various midstream gas companies including work with LNG projects.
