## BEFORE STITES & HARBISON

---

Mr. Weyer worked as a Molecular Biology Research Assistant at the University of Buffalo where he performed laboratory techniques including DNA sequencing, restriction mapping, monoclonal and polyclonal antibody production, bacterial metabolic analysis, purifying proteins and western analysis. He also co-authored two publications: Quinn, M.L., Weyer, S.J., Lewis, L.A., Dyer, D.W., Wagner, P.M., "Insertional inactivation of the gene from the meningococcal lactoferrin binding protein," *Microb. Pathog.* 17(4): 227-37, Oct. 1994; and, Wagner, P.M., Weyer, S.J. and Dyer, D.W., "Iron Uptake from Transferrin by Neisseria meningitidis," Annual meeting, American Society for Microbiology, 1993. Mr. Weyer was also the Director of Operations and an advanced E.M.T. at Baird Point Volunteer Ambulance Corps, Inc., an Advanced Life Support Ambulance company which served the University of Buffalo community. Mr.

Weyer is the ITechLaw Intellectual Property Committee immediate past Chairman. He volunteers as a coordinator of S.O.M.E. (So Others Might Eat), a local Washington D.C. "soup kitchen" and is active in the civic projects of the University of Dayton Alumni Association, Washington, D.C., Chapter. He is the regional captain for the University of Buffalo D.C. Ambassador Program coordinating other local alumni to recruit high school students to attend the University, and he is a member of the Advisory Board in the Law and Technology Program at the University of Dayton Law School. Mr. Weyer enjoys outdoor recreational activities including cycling, kayaking, backyard basketball and taking his energetic chocolate Labrador ("Tobie") for runs along the Potomac River and on the George Washington Parkway bike path, as well as less "extreme" activities such as maintaining yard and landscaping around his home. He also enjoys strumming on his acoustic guitar and homebrewing.
